# The Event

Date: October 31-1 November 2019

Venue: Hanoi, Vietnam

## Objectives

- ❖ CIGOS aims to not only raise awareness of the vital importance of sustainability in infrastructure development but also highlight the essential roles of innovation and technology in helping to plan and build sustainable infrastructure.
- ❖ CIGOS provides an international platform where participants can
  - disseminate scientific and technical knowledge in the interdisciplinary fields of civil engineering
  - develop business opportunities
  - promote technology and policy changes toward sustainable development in civil engineering

## Key participants

1

Researchers

Present state-of-the-art research trends in various topics related to Innovation for sustainable infrastructure.

2

Industrial firms

Demonstrate their cutting-edge technologies being practiced in sustainable infrastructure.

3

Policy makers

Present their domestic policies in developing sustainable infrastructure.
